

# FEDERAL DEMONSTRATION PARTNERSHIP

## Redefining the Government & University Research Partnership

### FDP MEETING REPORT/SUMMARY

Online Web Form Section Name	Session Info
<b>Session Name</b>	Open Government
<b>Point of Contact</b>	Richard Fenger – rfenger@uw.edu
<b>Working Group Activities/Outcomes/Progress to Date</b>	After a post DATA Act report to Congress down period, we are kicking off the renewed Open Government. During our hiatus we have remained plugged into several data standardization and transparency activities with the government and the data coalition
<b>Agenda/Discussion Points for this Meeting</b>	<ul style="list-style-type: none"><li>• Introductions</li><li>• Background</li><li>• Where we are now<ul style="list-style-type: none"><li>• The Puzzle</li><li>• Aligning and supporting other FDP work</li></ul></li><li>• Looking Ahead</li><li>• Future Projects</li></ul>
<b>Key Decisions Pending</b>	Moving forward we are looking to kick-off a couple of initiatives which will include volunteers and proper organization and structure to manage our efforts successfully
<b>Participation</b>	General presentation with half of the session dedicated to a discussion on targets for our efforts
<b>Moving Forward Key Risks/Issues Identified</b>	Kick-off our first demonstrable data centric analysis effort
<b>Meeting Summary</b>	Overall, our object was to reintroduce Open Government with new co-chairs while walking through the data landscape as we see it. We wanted to make the case for monitoring standardization and transparency efforts on going within the government, legislation and amongst advocacy efforts. Additionally we look to facilitate feedback for any of the government's efforts. Finally, we look to orchestrate data centric analysis and demonstrations. Another tenant is our dedication to ensuring all other FDP effort are looped in whenever activities may touch them. After laying the groundwork we touched off a conversation around LoC and draw-downs and financial post award reporting hoping to exhibit on how we might land on our first demonstrable target while judging enthusiasm for various targets. The discussion was great and the willing participants were enough to validate moving forward. A preliminary plan and a request for volunteers should be going out shortly.
<b>Volunteer Opportunities</b>	Draw-downs survey and analysis Financial Reporting data elements standards and analysis in support of OMB18-24
