

FDP Major Changes Summary for 2018 Fixed-Rate Clinical Trial Subaward Agreement sample

Purpose: Outline the major changes to the **FDP Fixed Price Clinical Trial Subaward Agreement** sample dated 2/23/2016 to the 2018 version dated **11/16/2018**.

- Renamed the sample the *FDP Fixed-Rate Clinical Trial Subaward Agreement*, per the NIH clarification [NOT-OD-18-222](#).
- Moved two terms and conditions (#10 on no cost extensions, and #13 on the RTCs) from the subaward face page to the top of Attachment 2A, to be consistent with the other FDP subaward templates.
- Updated all links on the top of Attachment 2A to be consistent with the other FDP subaward templates.
- Moved the Study Drug language from Attachment 2A to 2B.
- Included one additional page in Attachment 2B for space to include limited additional terms and Certificates of Confidentiality (CoC) language.

In general, the FDP Fixed-Rate Clinical Trial Subaward Agreement should not be modified or edited in any way, much like our other FDP subaward templates, **with the exception of Attachment 2B!** Attachment 2B is meant to be modified as needed, which is why it is called a sample, rather than a template.
