

# Phase VII Dues

The FDP membership dues are assessed on a tier structure based on each member institution's research expenditures.

- Tiers are based on 2018 HERD Survey data
- Organizations, that don't participate in the HERD survey, will be asked to report their total 2018 research expenditures
- The FDP's smallest institutions, those with a HERD survey level of less than \$25M, will be full members with \$0 dues assessment
- This will be implemented in a two-step process
  - The initial levels in the first 3 years of Phase VII
  - A second level beginning in Year 4, will increase each tier by \$500
