

FDP May 2020 Virtual Meeting

Agenda and Session Descriptions

Thursday, May 21, 2020 from 1-3pm EDT

Plenary – Welcome/Introductions/Meeting Overview/Federal Agency Updates

- **Welcome, News & Updates, Overview of Virtual Meeting Format**
Dick Seligman, FDP Co-Chair, Michele Masucci, FDP Co-Chair
- **Federal Agency Updates**
FDP Agency Representatives
Kristin Ta, NIH; Jean Feldman, NSF; Kanitra Cobbs, NASA; Calvin Scott, AFOSR; Debbie Rafi and Wade Wargo, ONR; Lisa Nichols, OSTP; Alexandra Raver, EPA

Tuesday, May 26, 2020 from 12-1:15pm EDT

Universal Protocol Form, CUSP, and The Guide (Hosted by the Animal Care & Use Subcommittee)

In conjunction with the FDP, the IACUC Administrators' Association (IAA), OLAW and the USDA support the project of developing a standardized IACUC animal protocol template as an initiative to reduce burden on investigators as stated in the 21st Century Cures Act. During this session, we will review the progress that has been made since the last FDP meeting, including critical review of questions on the current template, and the working group's next steps. This session will also include an update on the development of the CUSP Sharing Site, an online resource where institutions can share standard procedures used in animal care protocols. The CUSP project is also a burden reducing initiative of the 21st Century Cures Act.

In addition, NIH/OLAW and the National Academies of Science will be hosting a brief listening session to gather input from the community on updating The Guide for the Care & Use of Laboratory Animals.

Moderator: Axel Wolff, NIH/OLAW

Presenters: Aubrey Schoenleben, University of Washington; Bill Greer, University of Michigan; Teresa Sylvina, National Academies of Science; Axel Wolff, NIH/OLAW

Tuesday, May 26, 2020 from 2-3:30pm EDT

Faculty Forum and Meeting

The purpose of this session is to host a discussion featuring faculty panel participants to discuss the research impacts related to COVID 19 ramp down and ramp up efforts for a representative cross section of FDP institutions. The aim is to identify prevalent impacts across a range of institutions and to open the discussion for comment. This session is a companion session to the one set for March 27. A brief business meeting of the faculty representatives of the FDP will follow the forum.

Moderators: Michele Masucci, Temple University; Robert Nobles, Emory University

Tuesday, May 26, 2020 from 4-5:15pm EDT

Subawards Subcommittee Webinar

This session will provide updates on several subaward subcommittee initiatives, including discussion on facets of working group projects. In addition, co-chairs would like to discuss COVID-19 impact.

Presenters: Amanda Humphrey, Northeastern University; Amanda Hamaker, Purdue University; Stephanie Scott, Columbia University; Kevin Ritchie, Harvard University

Wednesday, May 27, 2020 from 1-3pm EDT

Plenary - COVID Federal Panel

Dr. Mike Lauer (NIH) will serve as the plenary speaker to discuss NIH's perspective on a strategic response to COVID-19 and how institutions may develop strategies to restart all aspects of research as they encounter related pauses, ramping up, or even ramping down research over the coming months. Following the plenary session, a panel of federal agency representatives will provide their perspectives and challenges that may help institutions understand how to leverage the FDP partnership to accomplish the agencies' priorities in a manner that is most effective and least burdensome to faculty and the research mission.

Moderator: Jim Luther, Duke University

Plenary Speaker: Dr. Mike Lauer (NIH)

Panelists: Stephen Meacham (NSF), Michelle Bulls (NIH), Barbara Orlando (Dept of Defense)

Wednesday, May 27, 2020 from 4-5pm EDT

Supporting COVID-19 related Data Transfer and Use Agreement needs

During this session, we will discuss development of a COVID-19 data specific DTUA template as well as a high-level checklist to help investigators complete the steps needed to reach execution of a DTUA. We will also have time to discuss other ways that the FDP can support the DTUA needs of our community during this time.

Presenters: Melissa Korf, Harvard Medical School; Martha Davis, Brandeis University; Alex Albinak, Johns Hopkins University

Thursday, May 28, 2020 from 1-2:30pm EDT

The Impacts of COVID-19 on Research Activities: The University Perspective

This session serves as a follow-up to the previous *COVID Federal Panel* and will provide faculty and administrator perspectives on COVID-related research impacts at their respective institutions.

Moderator: Dick Seligman, California Institute of Technology

Panelists: Michele Masucci, Temple University; Neil Charness, Florida State University; Craig Reynolds, University of Michigan; Alex Albinak, Johns Hopkins University
