Please consider the following elements when sharing data directly between institutions. Data deposits to registries or repositories may have different considerations. Institutions should adapt these elements as needed to meet their needs related to their institutional policies and procedures.

1. Is a DTUA needed (consult flowchart)?
2. Can the Provider transfer/share the Data for the Recipient's Purpose?
   a. If applicable, does the Informed Consent Document allow sharing for the Recipient's Purpose?
   b. If applicable, does the IRR approval allow sharing for the Recipient's Purpose?
